PERMA DOCK SHELTER

FEATURES:

Perma Tech offers a wide variety of dock shelter cover fabrics and unit sizes to custom build a dock shelter designed to meet your requirements. Years of experience result in the proven craftsmanship and quality construction, giving you the best value for your investment.

Foam side members combined with a wide range of cover fabrics make Perma's Dock Shelter suitable for even the heaviest traffic application. All lumber frames are pressure treated, Scotch-ply fiberglass stays sewn into the face curtains plus a foam edge on both vertical side curtains maintain constant pressure against the truck for positive weather protection. Perma Pleats on the head curtain and extra wear areas on the side curtains add durability at the critical truck contact points.

(PS90) SOFT SIDED SHELTER

The foam sides of the Perma Soft Sided Shelter are designed to lessen the chance of damage caused by off center trailers. Also where lift gates and other specialty trailer designs might be in use. The side curtains are easily removed in summer (to reduce wear) or to replace. Bottom draft pads close the gap at the bottom sides of the trailer. All in all, this is one of the most versatile and cost efficient shelters on the market today.

**Rigid Head Frame,
Foam Side Frames**

FEATURES AND OPTIONS

SHELTER HEAD CURTAIN:

Choice of many heavy duty fabrics, and Perma Pleat wear flaps on each side at truck contact areas.

SIDE CURTAINS:

Same fabric as head curtain. Extra wear area on bottom of curtains at critical truck contact areas.

FOAM EDGE:

Fabric covered foam strip on leading edge of side curtains for a snug fit against trailer sides.

GUIDE STRIPE:

18oz Yellow for accurate truck positioning.

BOTTOM DRAFT CUSHIONS:

Foam filled to seal off bottom of shelter. Independent of side curtains for easy and economical replacement. "NO STEP" printed on cushion for safety.

HEAD FRAME:

2" x 6" Pressure treated lumber, peaked at center to prevent snow and water build-up, and covered with a translucent panel to allow a lighted loading area.

SIDE FRAME:

Foam filled side pads, high density full memory foam with 2" x 6" or 8" wide pressure treated back boards.

DECLINE OR INCLINE:

Tapered dock shelter projections are available to accommodate inclined or declined approaches.
